„Ich brauche seit Kindertagen den Pinsel in der Hand. Ich liebe es, die Farben nebeneinander zu stellen und die Farbfläche durch Strukturen oder Ornamente aufzulösen.“

„I have always wanted to be holding a brush in my hand, ever since I was a child. I love painting the colours alongside one another and breaking up the areas of colour with structures and decoration.“

„Depuis tout petit, j'ai besoin d'avoir un pinceau dans la main. J'aime placer les couleurs les unes à côté des autres et décomposer la surface colorée par des structures et des ornements.“

„Da quando ero piccolo amo avere un pennello tra le mani. Amo combinare tra loro i colori e decorare la superficie con strutture ed ornamenti.“

„Desde la infancia necesito el pincel en la mano. Me gusta colocar los colores uno junto al otro y descomponer el campo de colores mediante estructuras u ornamentos.“

## STAND-ON

ergonomic anti-fatigue mat

### Stand-On - Die ergonomische Anti-Ermüdungsmatte

Längere stehende Tätigkeiten führen häufig zu Rückenschmerzen sowie Beschwerden in Beinen und Füßen. Verspannungen, Steifheit, Entzündungen und Krampfadern können weitere Folgen sein. Um diesen Symptomen vorzubeugen haben wir eine spezielle Anti-Ermüdungsmatte entwickelt. Das Stehen auf dem dauerelastischen Nitrilgummischaum hat eine muskelaktivitätsfördernde Wirkung und kann damit den Blutfluss und die Sauerstoffversorgung im Körper verbessern.

### Stand-On - The ergonomic anti-fatigue mat

Long periods of standing can lead to back problems as well as problems with the legs and feet. Tension, stiffness, inflammation, poor circulation and even varicose veins may result. To prevent these symptoms, we have developed a special anti-fatigue mat. Standing on the spongy nitrile rubber foam has an active effect which can improve blood flow and oxygen supply in the body relieving stress and fatigue in muscles and joints.

### Stand-On - Le tapis ergonomique « anti-fatigue »

De longues périodes en position debout peuvent causer des problèmes de dos, ainsi que des problèmes aux jambes et aux pieds. Des tensions, de la rigidité, des inflammations, une mauvaise circulation sanguine ou des varices sont autant de symptômes qui peuvent en résulter. Pour empêcher ces problèmes, nous avons développé un tapis ergonomique « anti-fatigue ». Se tenir debout sur ces tapis constitués de caoutchouc nitrile éponge provoque un effet actif qui améliore l'apport en oxygène dans le sang et permet une bonne circulation soulageant ainsi le stress et la fatigue dans les muscles et les articulations.

### Stand-On - Il tappeto ergonomico anti-fatica

Attività prolungate in piedi possono causare dolori alla schiena e fastidi a gambe e piedi. Tensione, rigidità, infiammazione, scarsa circolazione e vene varicose possono essere ulteriori conseguenze. Per prevenire questi sintomi abbiamo sviluppato uno speciale tappeto anti-fatica. Stare su una base di schiuma di gomma nitrilica ha l'effetto di attivare la muscolatura, e può aiutare a migliorare la circolazione sanguigna, e l'apporto di ossigeno al corpo.

### Stand-On - La alfombra anti-fatiga ergonómica

El estar largos períodos de pie puede traer problemas de espalda, así como problemas con las piernas y los pies. Pueden producirse tensiones, rigidez, inflamaciones, mala circulación e incluso varices. Para prevenir estos síntomas, hemos desarrollado una alfombra anti-fatiga especial. Al estar de pie sobre la espuma de goma nitrilo se produce un efecto activo que puede mejorar el flujo sanguíneo y el suministro de oxígeno en el cuerpo aliviando el estrés y la fatiga en los músculos y las articulaciones.

Bei PVC-Böden, Linoleumböden und frisch geölten Parkettböden kann es durch eine Wechselwirkung mit gummibeschichteten Matten zu einer Farbveränderung der Oberfläche kommen.

In the case of PVC, linoleum flooring and freshly oiled parquet floors discoloration can occur due to an interaction with rubber-coated mats.

En cas de sols en PVC, linoléum ou de parquets fraîchement huilés, une modification de la couleur de la surface du sol peut se produire par une interaction avec des tapis revêtus de caoutchouc.

Nel caso di pavimenti in PVC, linoleum e pavimenti in parquet appena oliati, l'interazione con tappeti gommati può portare ad un cambiamento di colore della superficie.

En el caso de PVC, suelos de linóleo y suelos de parquet recién aceitados, puede ocurrir una decoloración debido a una interacción con las alfombras recubiertas de goma.
